

Here are the materials you need for generating phone calls to legislators:

- 1.) Flyer with basic message and phone numbers. We are currently making 2 phone calls -- to Senate Democrats office and House of Representative Democrats office. During business hours, the receptionist will answer and member should ask to be transferred to his/her home legislator. At night, there should be a voice mail – member should leave a message including his/her home address.
- 2.) Tracking sheet to keep track of how many members make calls, *which legislators we called*, and the result. Please do the best you can to keep track.
- 3.) Legislative Guide – one copy for back-up phone numbers (just in case 1-800 voice mail is turned off at night for some reason, or if a member knows their home senator/rep)
